ABOUT ME

I'm Kavishka Indeepa, a 23-year-old aspiring Associate Software Engineer - FrontEnd currently studying at IJSE. My eagerness to learn and adaptability enable me to embrace evolving challenges effectively. I prioritize punctuality in all commitments and, with my ambition and dedication to continuous growth, I am well-prepared to excel as a software engineering intern. I look forward to contributing my skills and gaining valuable experience in the dynamic field of software engineering.

PROGRAMING LANGUAGES

- Java
- Java Script
- Type Script
- SQL
- HTML
- CSS

ARCHITECTURAL PATTERNS

- MVC
- Layered
- Client Server
- Monolithic
- Micro Service

WORKING EXPERIANCE

• HCode Solutions | 2024 (Present)

PetMedi - Angular, React, TypeScript, Tailwind CSS, Sass, Bootstrap

PetMedi: A comprehensive pet care management system developed by HCode Solutions for pet clinics, hospitals, and channeling centers. Features include appointment scheduling, an online shop for pet products, and a patient records management system to streamline operations. PetMedi offers subscription plans to enhance clinic efficiency and improve pet care services

Learning Management System - Angular, React, TypeScript, Tailwind CSS, Sass.

Collaboratively developed the backend for a Learning Management System (LMS) with role-based access for admins, lecturers, and students. Enabled course enrollment, assignment submissions, automated certification, and transcript generation. Designed features for lecturers to manage content, add results, and monitor student progress, providing a seamless, structured educational experience.

PROJECT EXPERIENCE

Easy Car Rental System

This Easy Car Rental System was made as a trick to Make car rental, Driver Managing, car Managing and Customer management easier.

- Spring web MVC
- Hibernate
- Bootstrap
- My SQL
- Layard
- Maven
