ABOUT ME

I thrive in fast-paced environments and enjoy tackling complex challenges through innovative solutions. My focus is on delivering high-quality code and seamless user experiences, while continuously learning and staying up-to-date with the latest web technologies. I'm excited about the opportunity to contribute to your company's success and enhance my skills alongside a talented team.

- **MVC**
- **Layered**
- **Client Server**
- **Monolithic**
- **Micro Service**

WORKING EXPERIANCE

HCode Solutions | 2024 (Present)

PetMedi - Angular, React, TypeScript, Tailwind CSS, Sass, Bootstrap

PetMedi: A comprehensive pet care management system developed by HCode Solutions for pet clinics, hospitals, and channeling centers. Features include appointment scheduling, an online shop for pet products, and a patient records management system to streamline operations. PetMedi offers subscription plans to enhance clinic efficiency and improve pet care services

Learning Management System - Angular, React, TypeScript, Tailwind CSS, Sass.

Collaboratively developed the backend for a Learning Management System (LMS) with role-based access for admins, lecturers, and students. Enabled course enrollment, assignment submissions, automated certification, and transcript generation. Designed features for lecturers to manage content, add results, and monitor student progress, providing a seamless, structured educational experience.

PROJECT EXPERIENCE

E-Book Management System

TAn E-Book Library Management System offering free and paid digital books in PDF format. Users can read free books without login, while paid books require login and payment. Authors can upload books for admin review and approval. Admins manage books, users, and payments via a dashboard and receive email notifications for new uploads. Users are notified of approvals or rejections. The system includes a robust search feature for QuickBooks access.

- React JS
- Tailwind CSS
- Typescript
- Node.JS
- Express.JS
